### VISION

Establishing Strong Groundwork for a Better World  
Through Exceptional Engineering

## 03

---

### MISSION

Our mission is to provide innovative, reliable, and sustainable engineering solutions that strengthen the foundation of communities and infrastructure. We are dedicated to excellence, integrity, and environmental responsibility in all that we do. Our goal is to build lasting partnerships, deliver exceptional projects, and contribute to the long-term success of our clients and the well-being of society.

# COMPANY FUNDAMENTALS

---

**DRSA Consulting Sdn Bhd (DRSA)** embodies the passionate aspirations, innovative ideas, extensive knowledge, and profound expertise of its directors.

**DRSA** is committed to delivering the shortest construction timelines, equitable contractual agreements, tailored specifications within the client's budget, diligent supervision and monitoring, and dedicated post-completion advisory services.

**DRSA** offers a broad spectrum of services, ranging from serving as a consulting engineer in Civil and Structural engineering to taking on the role of Project Managers, providing comprehensive management and professional support.

Even in situations where **DRSA** is engaged for a specific specialized engineering service, our primary objective is to offer clients the best and holistic solutions. This means that **DRSA** consistently goes the extra mile to provide relevant guidance and insights to other members of the client's project team, enhancing the overall project quality.

**DRSA** has an extensive global network and maintains ongoing relationships with numerous specialists. We are always ready to respond to potential client inquiries. At **DRSA**, we never decline a challenge; if unable to fulfill a particular request, we will leverage our extensive network to recommend the right solution.

# DIRECTORS & ASSOCIATES

## TECHNICAL ADVISOR

Ybhg. Datuk Ir. Dr. Wahid Bin Omar

holds PhD in Structural Engineering and Specialise in Bridge Engineering at Masters Degree Level. Prior joining **DRSA Consulting Sdn Bhd**, he was a Vice Chancellor of Universiti Teknologi Malaysia for seven years. Prior to that, he was assigned as the Director of Works, UTM for 3 years, and among his major tasks were managing assets and facilities and he was entrusted to lead UTM development projects worth RM1 billion. All the projects had been successfully completed, with a saving of RM100 million or 10% of the original project cost. Another outstanding task that he had delivered was the planning, construction and completion of RM180 million UTM Residensi Project in UTM Kuala Lumpur campus. Under his leadership as VC, UTM was among the top engineering university in the country and among the top in South East Asia Region. In this office he advises on technical related issues and design.

## TECHNICAL ADVISOR

Dato' Seri Ir. Dr. Hj. Kamal Nasharuddin Bin Mustapha

His academic journey is remarkable, blending engineering and Shariah law with notable expertise. He earned a BEng (Hons) in Civil & Structural Engineering from the University of Sheffield in 1984, followed by an MSc in Structural Engineering from Heriot-Watt University in 1986. In 1994, he achieved a PhD in Structural-Fire Engineering from the University of Aston. Additionally, he obtained a Postgraduate Diploma in Shariah from Universiti Kebangsaan Malaysia in 1991, showcasing his diverse academic interests. He began his career by being one of the pioneers in establishing the Civil & Structural Engineering Department at UKM in 1984. After leaving in 1994, he held various positions including as a senior engineer at Ikhtisas Ingeniur Sdn Bhd and Director of Uniti Consultants Sdn Bhd before transitioning to academia at Universiti Tenaga Nasional (UNITEN). At UNITEN, his career progressed from Civil Engineering Professor to Head of Department, Dean, Deputy Vice-Chancellor, and finally Vice-Chancellor, a role he held for six years before retiring in 2022. He also chaired the Vice-Chancellors' Council for Private Universities in Malaysia (VCCPU). He is also active in NGO activities and holds significant positions such as Chairman of the Board of Trustees at Humanitarian Care Malaysia (MyCARE) and membership in the Engineering Accreditation Council (EAC) Malaysia. He is a PEPC with Board of Engineers Malaysia, a Fellow of IEM, a Fellow of Academy Science of Malaysia and a Corporate Member of ASEAN Engineers. He is an alumnus of MRSM (ANSARA) Pengkalan Chepa. # MANAGING DIRECTOR

**Ir. Dr. Mohd Sabri Bin Abdullah**

## BACKGROUND

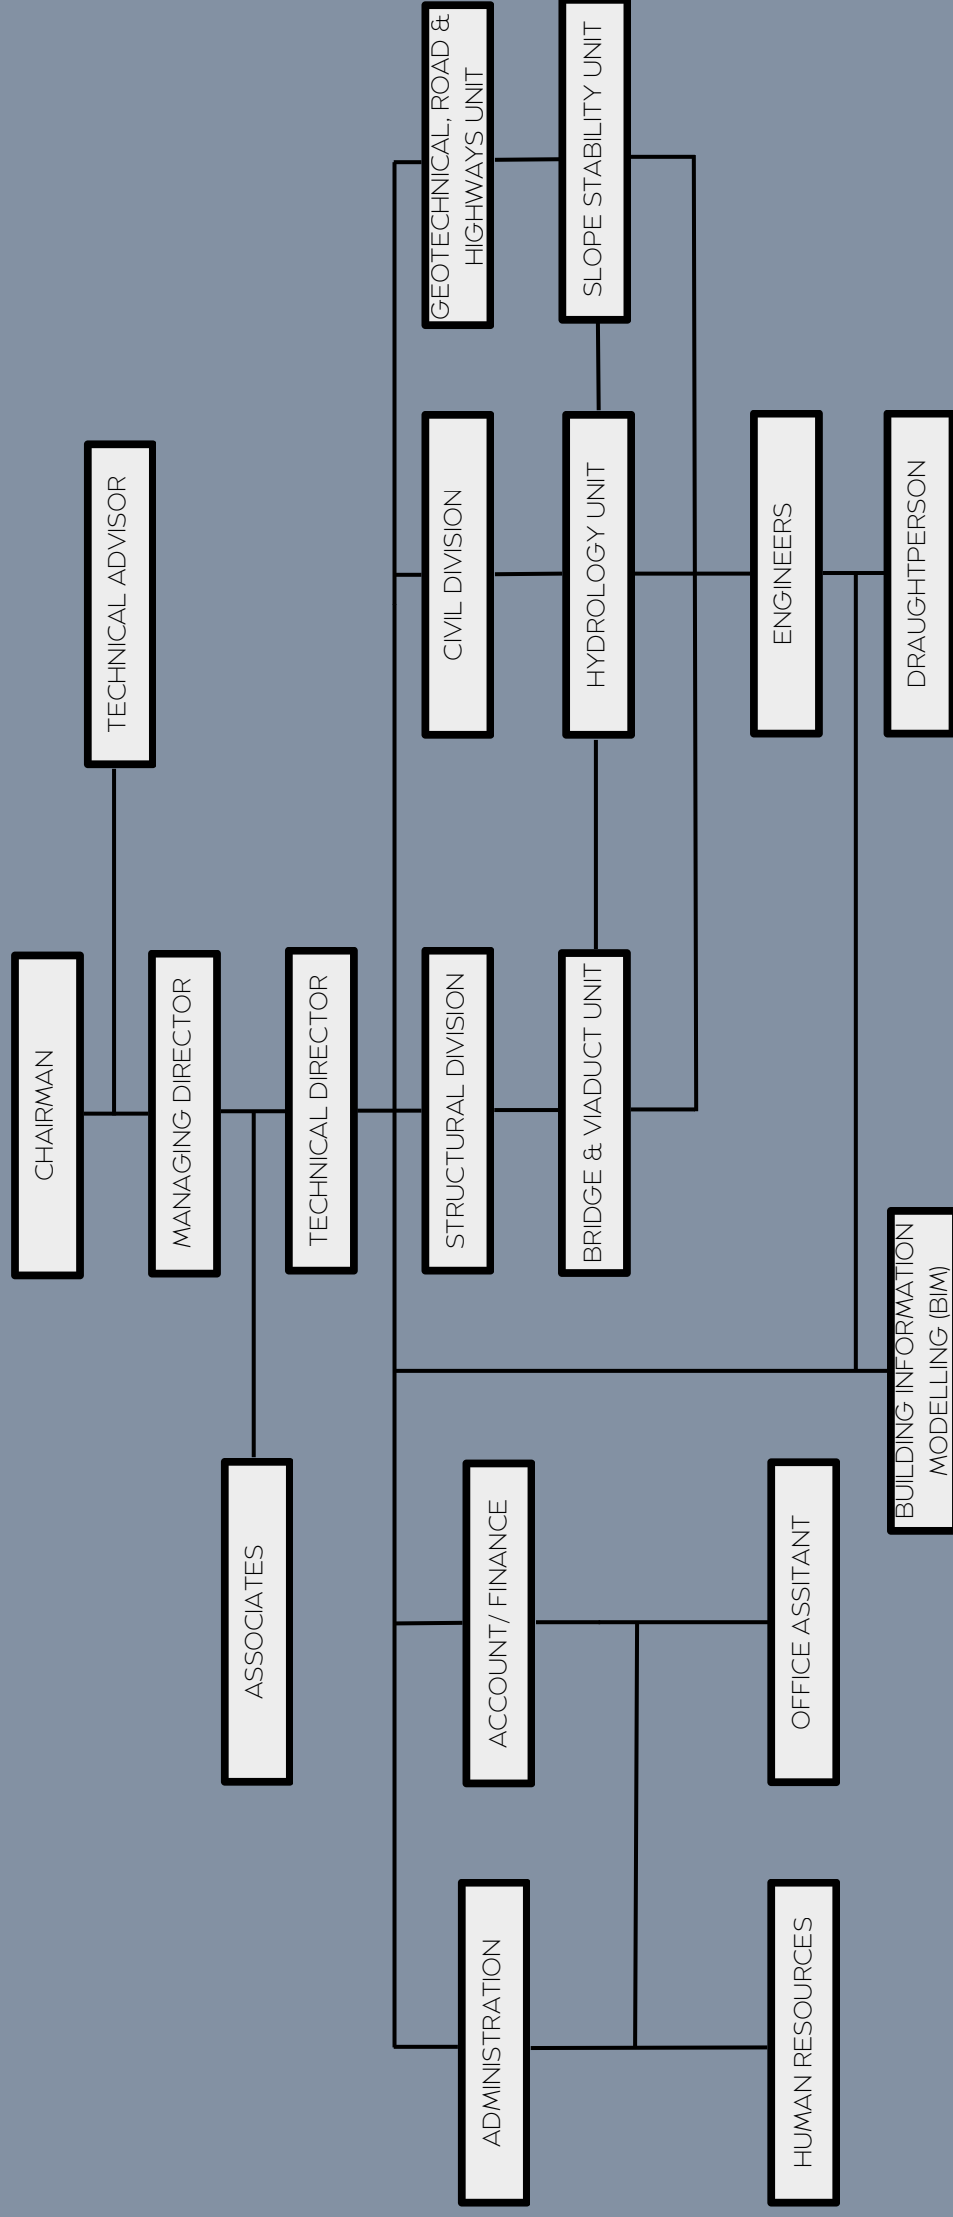

***Ir. Dr. Mohd Sabri Abdullah***'s educational background includes graduating from the University of Strathclyde in 1985, the University of Liverpool in 1987, and the University of Dundee in 1993, with a specialization in structural engineering. He commenced his career in 1985 as a lecturer at the University Kebangsaan Malaysia (UKM), where he played a pioneering role in establishing the Department of Civil Engineering. In 1993, he transitioned to consultancy work, a field he has remained in since.

Over the years, he held various positions in several consulting firms before establishing **DRSA Consulting Sdn Bhd** in 2000. He gained international experience by working on bridge projects in the UK and high rise buildings in the USA. Ir. Dr. Mohd Sabri is recognized for his profound expertise in the analysis and design of various structures, with a particular focus on Reinforced Concrete (RC) and Prestressed Concrete. He personally led design teams for numerous projects of varying complexity and sizes across the country, and he also served as a checker for a wide range of projects, including buildings, temporary works for MRT projects, bridges, and viaducts.

Beyond his work in the industry, Ir. Dr. Mohd Sabri actively participated in professional technical committees, such as those at IEM, SIRIM, and CIDB. He held council membership positions at ACEM for multiple terms and led numerous investigating committees at BEM. His commitment to the field extends to being a long-standing committee member of the IStructE Malaysia Regional Group, spanning over 20 years. He currently serves as a member of the Professional Competency Exam (PCE) committee and Accredited Checker (AC) committee with BEM.

In the academic sphere, he holds an adjunct structural professorship at UNITEN and serves as an Industrial Advisory Panel member at UNITEN, UKM, and UTM. He also engages in part-time teaching and delivers lectures at various universities. Ir. Dr. Mohd Sabri holds the titles of a Fellow of IEM and a PEPC with BEM, in addition to being a Chartered Engineer of the Engineering Council, UK. He is also recognized as a professional accredited structural checker approved by BEM. Remarkably, he is one of the few local chartered structural engineers registered with the prestigious Institution of Structural Engineers (IStructE), UK, and he holds the distinction of being a Fellow of the Institution of Civil Engineer, UK (FICE).

# PROFESSIONAL EXPERIENCE

## CONSULTANT/ DESIGNER & STRUCTURAL CHECKER

---

**Ir. Dr. Mohd Sabri** stands as a distinguished figure in the realm of civil & structural engineering, renowned for his exceptional accomplishments in managing projects of diverse scales and complexities. As both a civil & structural engineering consultant/designer and structural checker, his extensive portfolio showcases a remarkable ability to navigate challenges, deliver innovative solutions, and earn accolades for award-winning projects.

- **Projects of Varying Scales:**

**Ir. Dr. Mohd Sabri's** career reflects a breadth of experience, ranging from the intricacies of personal bungalows with a budget of around RM 1 million to the grandeur of projects such as Teaching Hospitals, where costs can soar up to RM 400 million. His expertise extends across the financial spectrum, highlighting his adaptability and proficiency in managing projects with vastly different scales and budgetary requirements.

- **Handling Different Complexities:**

A true pioneer in civil & structural engineering, **Ir. Dr. Mohd Sabri** has showcased his proficiency in handling projects with varying complexities. From intricate steel structures to the challenges posed by prestressed and reinforced concrete designs, beams with high shear stresses, and the integration of Industrialized Building Systems (IBS), he has consistently demonstrated a deep understanding of structural intricacies. His ability to address diverse complexities reflects a commitment to innovation and a keen awareness of evolving engineering practices.

- **Award-Winning Projects:**

**Ir. Dr. Mohd Sabri's** commitment to excellence is underscored by his involvement in award-winning projects, such as the Perdana Botanical Garden Canopy, which secured the esteemed PAM Awards 2015, Special Category (Silver). This recognition not only honors his design and engineering prowess but also highlights his dedication to pushing the boundaries of innovation in civil & structural engineering.

- **As a Civil & Structural Engineering Consultant/Designer:**

In his role as a civil & structural engineering consultant/designer, **Ir. Dr. Mohd Sabri** has played a pivotal role in shaping the civil & structural engineering landscape of various projects. His creative vision, strategic approach, and attention to detail have set new benchmarks in design, ensuring that each project meets the highest standards of functionality and aesthetics.

- **As a Structural Checker:**

In his capacity as a structural checker, **Ir. Dr. Mohd Sabri** ensures the structural integrity and safety of each project. His meticulous scrutiny of designs and rigorous quality assurance processes guarantee that projects undergo thorough examination, minimizing risks and ensuring optimal performance.

***For a detailed overview of the projects managed by the company or structurally verified under the leadership of Ir. Dr. Mohd Sabri, please refer to the list of project highlights available in the following pages of the company profile***

# PROFESSIONAL EXPERIENCE

## Research and Development

PhD research student at the University of Dundee, UK. Carried out research on the structural behaviour of reinforced concrete beams utilizing steel plates for high shear stress. This is a new technique which has potential application in ordinary and special structural elements. Research work involved testing a number of beams and detailed analysis on the behavior of such construction. Analytical works involved extensive use of a non-linear finite element program, ABAQUS. The thesis was judged to the best in the department that submitted in 1993, and won the 'Dr. Angus Fulton Award'

Carried out study onto the durability of reinforced concrete structures by permeability methods. The work involved of testing concrete specimens by using the method of Figg Air Permeability and Initial Surface Absorption

Study onto the durability of cement-ferro by applying permeability tests namely initial surface absorption and Figg Methods
